KALIMUTHU R

Full Stack Developer | Data Analyst

PROFESSIONAL SUMMARY

Full Stack Developer and Data Analyst with a 9+ year engineering career in 3D metrology and dimensional data. Recently completed the IIT-M Pravartak Certified Full Stack Development Course with AI Tools (GUVI / HCL, 2026) and holds an ExcelR Data Analyst Certification awarded with distinction, backed by a six-month Data Analytics internship at AI Variant. Has built dashboards and automation that cut multi-day analysis work to hours — a Power BI tool (2 days to about 2 hours) and a PolyWorks automation workflow (3 days to under 4 hours) — and brings strong domain knowledge, documentation discipline, and cross-team collaboration to product and data teams.

CERTIFICATIONS & TRAINING

IIT-M Pravartak Certified Full Stack Development Course with AI Tools
GUVI (an IIT-M incubated company, HCL partner) · 3-month program · Jun 2026

Data Analyst Certification (awarded with distinction)
ExcelR · Aug 2024

Data Analytics Internship
AI Variant · 17 Apr 2024 – 18 Oct 2024

PROFESSIONAL EXPERIENCE

Technical Lead — 3D Scanning, Metrology & Reverse Engineering, 01/2024 to Current
SART Engineering Solutions - United Arab Emirates (Remote)

- Own the workflow from on-site part capture through point-cloud processing and scan-to-CAD, to validated digital output, ensuring data is accurate, repeatable, and traceable for engineering use.
- Define and maintain QA/QC checks and documentation to keep outputs consistent across the team.
- Lead a team of four engineers across Middle East customer sites, directing and guiding the work remotely from India.

Design Engineer — Metrology & Wear Analysis, 08/2022 to 12/2023
Bradken India - Coimbatore

- Built a Power BI tool that cut high-wear mill identification time from 2 days to roughly 2 hours.
- Automated mill-scan alignment in PolyWorks, reducing a process that previously took 3 days to under 4 hours.
- Performed dimensional and wear analysis of grinding mill liners using FARO laser scan data; prepared and validated wear prediction reports for engineering and maintenance decisions.

SKILLS

Full Stack Development: IIT-M Pravartak certified program with AI tools (GUVI / HCL)

Data Analytics & BI: Power BI · Tableau · Excel · SQL/MySQL · dashboards & reporting · data validation

Programming & Automation: Python · PolyWorks macro automation · workflow automation

Domain Knowledge: 3D scanning · dimensional inspection · CMM · scan-to-CAD · PolyWorks · Geomagic Design X · FARO

Delivery & Collaboration: Documentation · QA/QC & SOPs · cross-team and international stakeholder collaboration · training & user adoption

PERSONAL DETAILS

Date of Birth: 29/01/1993

Nationality: Indian

Marital Status: Married

Application Specialist — Metrology Software, **03/2020 to 07/2022**
PolyWorks Software India Pvt Ltd - Chennai

- Developed custom macros that reduced user workload and inspection cycle time.
- Led training, implementation, and issue resolution for the automation toolset across users.
- Delivered technical demonstrations and application solutions for PolyWorks metrology software, and trained end users to drive adoption of new workflows.

Sales Application Engineer — Metrology & Design Solutions, **07/2018 to 02/2020**
Precision Solutions FZE - Ras Al Khaimah

- Performed technical evaluation and scoped turnkey metrology and reverse-engineering solutions; built lasting client relationships with CRM-driven pipeline tracking.

Application Engineer — Inspection & Reverse Engineering, **06/2016 to 06/2018**
Precise 3D Metrology and Design Solutions Pvt Ltd - Chennai

- Executed third-party dimensional inspection and reverse-engineering service projects for industrial clients.

EDUCATION

M.E., Engineering Design, *05/2016*
Kongu Engineering College - Erode
Awarded Best Presenter, ICSMDA 2016 International Conference.

B.E., Mechanical Engineering, *05/2014*
TRP Engineering College - Tiruchirappalli
